

North Texas Polymer Clay Guild  
February 2018 Meeting  
Sandy Williams: Beads of Courage

### Supply List

- ❖ Work Surface
- ❖ Pasta Machine
- ❖ Basic Polymer Clay Tools such as standard blades, x-acto knife, needle tool, acrylic rods, plastic deli wrap, printer/patty paper, etc.
- ❖ Kemper Cutters might be helpful in terms of measuring amounts for same size beads
- ❖ Knitting Needles the size of 3/32" hole would be helpful
- ❖ Extruder and dies might be helpful if you have one
- ❖ Polymer Clay
  - Sculpey Translucent Liquid Clay or Sculpey Bake and Bond or Kato PolyPaste
  - Small amounts of multiple colors of Premo Clay -- bring the odds and ends of clay used in previous classes
  - 2-3oz of Scrap Clay might be useful

Note: We will be making beads using canes that were made by our beloved Barbara Petroski. This is going to be a wonderful workshop and a way to remember and honor our friend that has gone on before us.
