

North Texas Polymer Clay Guild
November 2017 Meeting
Nancy Lotzer: Playing with Mica Shift Patterns

Supply List

- ❖ Work Surface
- ❖ Pasta Machine
- ❖ Basic Polymer Clay Tools such as standard blades, x-acto knife, needle tool, acrylic rods, plastic deli wrap, printer/patty paper, etc.
- ❖ Polymer Clay
 - Nancy has only tested the newer Premo Pearl/Metallic Clays as those are what are currently available. If you have the old Premo Pearl/Metallic Colors, those should work as well. However, please use new Premo Pearl/Metallic, old Premo Pearl/Metallic or Kato Pearl/Metallic clays (softened/conditioned). Note: No GLITTER clays!!! They will not work
 - 2 oz. of Premo Base Color such as Purple Pearl or Peacock Pearl
 - 1 oz. of Premo Pearl Clay
 - 1 oz. of Premo Graphite Pearl
 - 1 oz. of Premo Other Colors of Pearl/Metallic clays to play with if you want to experiment.
 - Mold Maker Clay, Translucent/Clear Liquid Sculpey, or Sculpey Clay Softener if your clay is stiff or crunchy.
- ❖ Please bring the following if you have them. Nancy will share so don't go out and buy anything other than clay.
 - Extruder Dies - no extruder needed
 - Ball Sytluses - all sizes
 - Graduated shape cutters - pendant sizes (1", 1-1/4", 1-1/2", 2", etc.)
